

WR112 Waveguide Filter 7.35-8.1GHz

Summary:

- Waveguide Filter – High Q and high rejection.
- Flat frequency response for pass band
- inband Low insertion loss, outband high rejection
 - Wide bandwidth Available from 5-50% (f_0)
- Designs that Cover up to 40 GHz Also Available
 - MIL-E-5400 standard

Pass Band (GHz)	Rejection (dB)	VSWR	Insertion Loss (dB)	Return Loss (dB)	Power (W)
7.35-8.1	50dB@6.6GHz 40dB@8.85GHz	1.20	0.41	-20dB	1000

Mechanical Specifications:

Length: 3.5"/89mm

Connector: waveguide WR112

Environmental Specifications:

Operational Temp. Range: -45°C~+85°C

Storage Temp. Range: -55°C~+100°C
