## GENERAL DESCRIPTION

The HFL3F is a high performance 3dB hybrid coupler in a surface mount package. This low profile coupler handles up to 20 watts of CW power. The HFL3F is designed for those demanding applications where low loss, excellent amplitude and phase balance are required.

The HFL3F is manufactured with materials that have thermal expansion characteristics compatible with industry standard board materials like RO3003, RO4350, FR4 and others. The couplers are available in a RoHS compliant finish and packaged in both reel and tube.
