

Yagi Antenna

Product Description

This 12dBi dual band Yagi Antenna is used as a outdoor unit to couple the base station signal to inside the building and vice versa.

Technical Specifications

Model	370 225 00
Antenna type	Yagi

Electrical Specifications

Frequency Range (MHz)	890 – 960 & 1710 – 1880
Peak Gain (dBi)	12
Input VSWR	< 1.5:1
Polarization	Linear
Horizontal Beam width (deg)	50
Vertical Beam width (deg)	40
Cross Polarization (dB)	15
Front to Back Ratio (dB)	20
Impedance (ohms)	50
Average Power Input (Watts)	50
Connector	N (F)

Mechanical Specifications

Length (mm)	660
Weight (grams)	300
Material	Aluminium
Mounting	Suitable for Pole Mounting
Finish	Black Powder Coated
Temperature Range	-20°C to +70°C
