

SG Compact

Signal generator 6 - 18 GHz

- Essential tool for antenna alignment and testing
- Top choice for LoS verification applications
- Perfect for different microwave system analysis and measurement applications
- Intuitive control and interactive GUI with instant on/off functionality
- Resistive touchscreen allows working with gloves on

P/N	J0SSAG11	J0SSAG12
Frequency bands	6/7/8/10/11 GHz	10/11/13/15/17 GHz
Frequency range	5.925 - 12.000 GHz	10.000 - 18.000 GHz
Adjustable frequency step	1 MHz	
Output power range	-3 ... +13 dBm	-3 ... +11 dBm
Adjustable power step	1 dBm	
Signal form	Continuous wave	
Sweep speed	0.5s @ 100MHz Span	
Guaranted accuracy	+/- 1 dBm	
Output	50 ohm SMA (f)	
Interface	mini USB 2.0 (1.1)	
Battery life	up tp 4h	
Operating temperature	-15°C to +40°C / 5°F to 104°F	
Dimensions	128 x 81 x 24 mm / 5.04 x 3.2 x 0.94 in	
Weight	0.3 kg / 10.6 oz
