

Ultra - Short Terminations

Series 171

Features

- Minimal Length
- Low VSWR
- Broadband
- Higher Power Options

A very short termination has been developed for integration into systems where space is a premium. The WG22 version offers the following performance for a total length of 8mm.

Typical performance figures are given below. Work is underway to provide a VSWR better than 1.2 across the full band. A higher powered version is also available.

Model	Frequency (GHz)	VSWR
22171	26.4 - 40.1	1.8
22171-A*	30 - 33	1.3
22171-A*	32 - 46	1.15
22171-A*	36 - 40	1.25

* Narrow band options
