

# ANATECH ELECTRONICS, INC.

Manufacturer of RF & Microwave Filters and Products

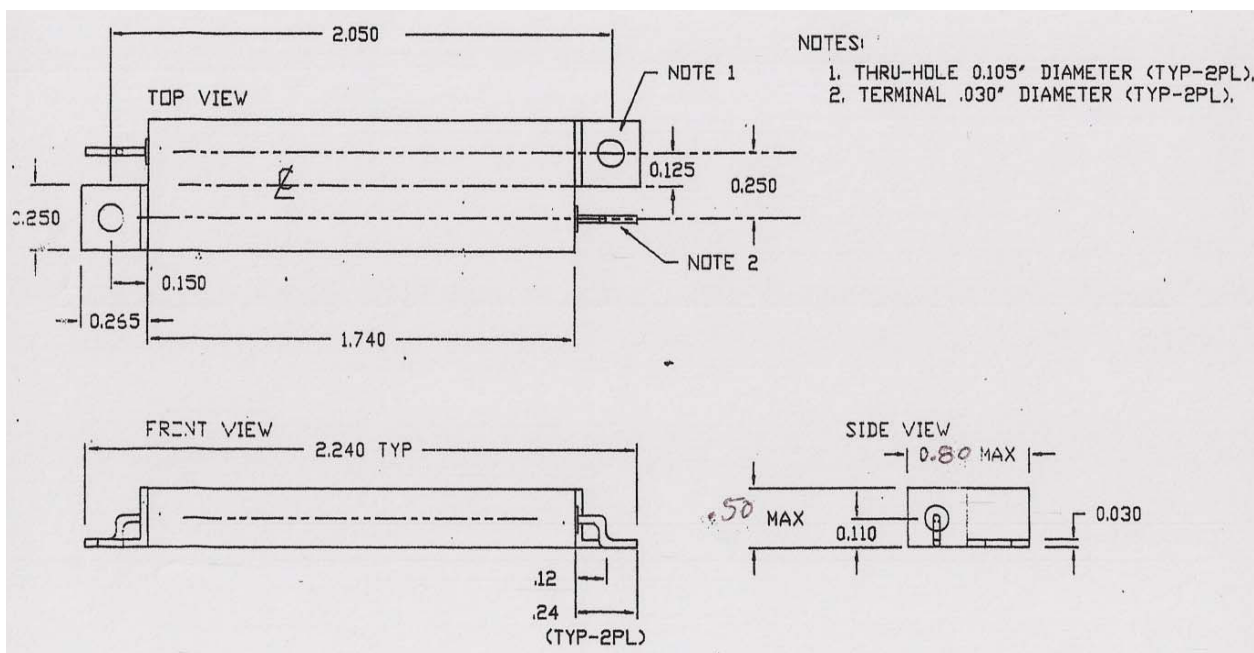

## 9.8 MHz Crystal Filter

P/N: AM9.8CR253

|                                 |                           |
|---------------------------------|---------------------------|
| Center Frequency:               | 9.8 MHz                   |
| 1 dB Bandwidth:                 | +/- 8 KHz                 |
| Attenuation Bandwidth at 40 dB: | +/- 25 KHz                |
| Insertion Loss:                 | <5 dB                     |
| VSWR:                           | 2:1 over 85% of Bandwidth |
| Impedance:                      | 330 Ohm                   |
| Operating Temperature Range:    | -20°C to +70°C            |
